KEEP THIS IN THE BAG

BAG TO WATER IN 15 TO 20 MINUTES.

One person can launch it. No trailer, no slip, no marina fees. These are the five steps Nick follows in the setup video on every product page.

15 to 20
minutes, bag to water

3.5 PSI
in the tubes

10 PSI
in the drop-stitch floor

1
person can launch it

FIVE STEPS

1. **Unbag and unroll**
   Lay the boat out flat on clear ground, away from anything sharp.
2. **Tubes to 3.5 PSI**
   Inflate the tubes and stop at 3.5 PSI on the gauge.
3. **Floor to 10 PSI**
   Inflate the drop-stitch floor to 10 PSI. It should feel rigid underfoot.
4. **Seats in**
   Fit the bench seats.
5. **Keel and final shape**
   Shape the keel, then walk around the boat and check it over before launching.

10 FT BATTLE BOAT

> Steps are shown on a Battle Boat. Watch the 6-minute walkthrough, with setup tips at the end, on any boat page at rovermarine.com.

IN THE BAG AND AFTER THE DAY

WHAT'S IN THE BAG

- Travel bag: the whole boat packs into it
- Two row oars, with oar locks on both tubes
- Foot pump
- Bench seats

Sold separately

Motor, electric pump, Bimini shade and the Boaters Package. The transom is 15 in, short shaft, rated for electric or gas.

BEFORE EVERY LAUNCH

- [ ] Tubes at 3.5 PSI and floor at 10 PSI on the gauge
- [ ] Valve caps closed
- [ ] Seats and oars secured
- [ ] Motor clamped tight to the transom
- [ ] Life jackets and required safety gear aboard for everyone
- [ ] Total load under the max capacity for your size

PACKING DOWN

1. **Rinse and dry**
   Fresh water after salt, then let it dry before it goes in the bag.
2. **Deflate**
   Open the valves and let the floor and tubes down.
3. **Fold into the travel bag**
   For storage, the trunk or a yacht locker. The pack-down video on the product page runs 3 minutes.

Storage matters for your warranty. Coverage excludes damage from improper storage and lack of care. Full terms at rovermarine.com/pages/warranty.
