OWNER CHECKLIST

PAPERWORK BEFORE YOU LAUNCH.

Boat registration is set state by state. Use this sheet to gather what your state boating agency will ask for, and to keep your boat's details in one place.

1
agency to call: your state's

HIN
the number on your exact boat

MIC
certified hull

Mailed
registration paperwork from Rover

BRING TO THE AGENCY

- [ ] Your model and size
- [ ] The Hull Identification Number (HIN) from the boat
- [ ] Your purchase documents
- [ ] The registration paperwork Rover Marine mails you
- [ ] Motor details: make, power and serial number
- [ ] The state where you will use the boat

CONFIRM WITH THEM

- [ ] Whether your boat and motor must be registered
- [ ] Documents and fees
- [ ] Sales or use tax
- [ ] HIN inspection rules
- [ ] Where numbers and decals go
- [ ] Operator education requirements

Adding a motor often changes the answer. Many states treat a boat with any motor, including an electric one, differently from one that is only rowed. Ask your agency before the first launch.

MIC-CERTIFIED HULL

From Rover Marine

Every Battle Boat and Battle Cat has a MIC-certified hull, and we mail your registration paperwork after you order. Keep it with your purchase documents; you will need both at the agency.

YOUR BOAT ON RECORD

FILL THIS IN AND KEEP IT ABOARD

Model and size _____

HIN _____

Purchase date _____

Order number _____

Motor make _____

Power _____ HP / kW

Motor serial _____

Operating state _____

Registration no. _____

Expires _____

Insurer _____

Policy no. _____

NUMBERS AND DECALS

- Do not cover a valve, a safety label, a seam or the HIN.
- Before applying anything permanent, confirm the method suits the boat material and that your agency accepts it.

ASK YOUR INSURER

- [ ] Is the boat covered on its own, or as a tender to a larger boat?
- [ ] Is the motor covered, including theft?
- [ ] Is it covered while stored, in transit and on the water?

> General information, not legal advice. Your state boating agency and your insurer have the final word. More in the Journal at rovermarine.com/blogs/journal.
